

What Is Being Taught in Public Schools

These things are presented in the public school curriculum, reflected in the policies adopted by schools, and teachers, and reflected by the attitudes of the students:

Teaching such as:

1. Showing a preference of other religions, and other religious books while presenting an attitude against Christianity, and banning the Bible and prayer.
2. Presenting evolution as a truth, while denying anything connected with creation.
3. Teaching against Christian family values and morals while lifting up other opposing standards creating a reflection that Christian morals and standards are not only bad, but also dangerous.
4. Liberal thinking that denies God.

What is taught in curriculum is more often than not reflecting special interest groups who lobby, and pay to get their agenda into the curriculum, and into the minds and hearts of your children. This is presented in the Kindergarten readers and up through high school. It shows up in all types of classes, and curriculum to influence children to a certain way of thinking. It doesn't matter if you opt out of certain things, it is in everything. These groups know that if they control the way the young think, then they can control the country, and they go to any lengths to do so. One example of this is the fact that the Koran is taught, and memorized, but the Bible is banned even in study halls. The agendas of cult religions are lifted up while Christianity is not allowed, and the name of Jesus can't be spoken publicly even to the place that the word Christmas can't be used. You can't discriminate against many homosexual groups who can speak their views, but the 10 Commandments cannot be displayed. Our society is becoming warped and without morals, and Christian standards, it will collapse. So will your children. These groups know that Christianity will give children an anchor to keep them from being taken in by false teaching, and principles. That is why Christianity, and the Bible are being attacked.

Not only do you lose your children's minds, and hearts, but you also lose control of your children. Not only are their hearts and minds turned against God, but often against parents, especially when your truths and values are opposed to what they are being taught is true.

When there are no absolutes, when there are no moral standards to guide them, when God is taken out and counterfeits replace Him, when the values they learned as children are stripped away, then children and young people are prey. Suicide is the leading cause of death among children and teens. Without something to hold to, they easily fall into addiction, and many other kinds of self destructive behavior. Frequently, they also go through bullying and school violence which place them as victims. All of this can strip away a child's self confidence, and joy, and cause them to become isolated, and depressed, and suicidal.

This isn't just a Sunday School thing, but it is a life thing. If Godly principles are taken out of education then the truth is not being presented, and if children's lives are built on a crooked foundation of lies, then the children will fall, and they definitely will not be free. Everything from Science to History, from Health to Literature, from Psychology to Government, in all courses, if God is taken out, then the knowledge presented is perverted, and not true. It is time that the parents, and the churches say “The world won't teach my children. I'll sacrifice to find a better way.” It is time that the family of God rises up to say that they will teach their children. For the only way that your children will find peace will be when they are taught of the Lord.
